

SIMRANDEEP KAUR

simmikaur2218@gmail.com | +91 6284705045 | Ludhiana, Punjab | [GitHub](#)

SUMMARY

Motivated CSE student with hands-on experience in Python, C/C++, full-stack development, and web technologies. Proven leader in large-scale event management and technical project execution. Seeking internship/summer training to apply technical and leadership skills.

EDUCATION

Guru Nanak Dev Engineering College, Ludhiana B.Tech – CSE	<i>Aug 2023 – June 2027</i>
Apex Study Hub, Ludhiana Professional Diploma in Computer Applications	<i>May 2022 – May 2023</i>
Government Girls Senior Secondary School, Gill, Ludhiana Non Medical	<i>April 2022 – March 2023</i>

TECHNICAL PROJECTS

- **Face Recognition System** | Python, OpenCV, Deep Learning
Engineered a real-time face recognition system using OpenCV and deep learning models, capable of accurately identifying individuals from live camera feeds with high precision and minimal latency
Implemented a robust ML pipeline including face detection, feature extraction, and classification, adaptable for security access, identity verification, and surveillance use cases
- **Secure Token-Based Automated Attendance System** | Python, Flask, JWT, MongoDB
Developed a full-stack automated attendance platform leveraging JWT-based token authentication to ensure secure, tamper-proof session management and accurate identity verification for every user
Designed a RESTful Flask backend with MongoDB for real-time attendance logging, enabling instant record updates, query-based reporting, and a seamless experience for students and administrators
- **Weather Forecast App** | Python, OpenWeather API, HTML, CSS, JavaScript
Built a dynamic weather forecasting application integrated with the OpenWeather API, delivering real-time data including temperature, humidity, wind speed, and conditions for any location worldwide
Designed a responsive front-end using HTML, CSS, and JavaScript, providing users a seamless experience to fetch and visualise live weather updates instantly across all devices

CERTIFICATIONS & TRAINING

- **Python Programming** (Online) • **Prompt Engineering** (45-Day Training) • **Web Development** (STEP, GNDEC) • **Digital Marketing** (Online) • **Cultural Committee Management** (GNDEC)

CAMPUS LEADERSHIP & ACTIVITIES

- **Cultural Committee, GNDEC** | Event Management Head & Overall Coordinator
Spearheaded event management and overall coordination for large-scale college cultural events, ensuring seamless execution and a positive experience for all participants, guests, and stakeholders
- **ICCT-SD 2026 International Conference** | Management Committee Member
Coordinated management operations for an international conference at GNDEC, overseeing delegate registration, session scheduling, and on-ground logistics across all three days of the event
- **Causmic Club & NSS** | Active Member & Volunteer
Contributed to science and innovation activities through Causmic Club while serving as an NSS volunteer, participating in community outreach programmes and civic awareness campaigns

SKILLS

Technical: C, C++, Python, HTML, CSS, Bootstrap, JavaScript, Node.js, MySQL, Full Stack Development, Git, Figma, MS Excel, Prompt Engineering

Soft Skills: Leadership, Teamwork, Communication, Problem Solving, Adaptability, Collaboration, Event Management, Team Coordination, Stakeholder Engagement, Time Management
